DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-3 and 9-11 are rejected under 35 U.S.C. 102(a) as being anticipated by Schramm (US2002/0110138A1).

As per claims 1 and 9, Schramm disclosed a method for estimating an unknown multi-path channel and a noise variance in the presence of narrowband interference in a wireless local area network (WLAN), comprising the steps of receiving a time domain OFDM data packet, converting the time domain OFDM data packet to a frequency domain OFDM data packet, extracting a vector of training symbols having known transmitted values from the frequency domain OFDM data packet, using the training symbols to derive a simplified channel estimate, and estimating a noise variance of the narrowband interference using the simplified channel estimate (abstract, fig. 4a, fig. 4b, [0075-0086, 0096-0103]).

As per claims 2 and 10, Schramm disclosed WLAN is operated in accordance with the IEEE 802.11 standard [0166].

As per claims 3 and 11, Schramm disclosed the simplified channel estimate assumes no interference present in said unknown multi-path channel [0072, 0075-0086, 0096-0103].

Allowable Subject Matter

3. Claims 4-5 and 12-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 6-8 and 14-16 are allowed.
